DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 84-122, 124-140, and 153-165, drawn to a method and system for delivering encrypted content to one device and distributing the content to other devices, classified in class 380/210, subject matter wherein a video electric signal is made unintelligible by varying at least one of its parameters.

Group II, claim(s) 123, and 141-152, drawn to a method and system for securely converting digital content to analog content, classified in 380/216, subject matter wherein a baseband video signal is digitized prior to signal modification.

2. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The independent claims of group I are directed towards a system with the special technical feature of distributing encrypted content from one device to another. The independent claims of group II are directed towards a system with the special technical feature of decrypting content within a digital to analog converter. The independent claims of group I do not share a special technical feature with the independent claims of group II, and as such, the restriction requirement is proper.

3. A telephone call was made to Clifford Mass on Monday April 25, 2005 to request an oral election to the above restriction requirement, but did not result in an election being made.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Art Unit: 2131

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Matthew T. Henning whose telephone number is (571) 272-3790. The examiner can normally be reached on M-F 8-4.
